

ADITHYA A SHETTY

Computer Science Engineering Student | AI & Python Developer

Mangaluru, Karnataka, India | adithyaashetty2007@gmail.com | 8088814686

GitHub: github.com/adithyaashetty2007-a11y

Profile Summary

Computer Science Engineering student at St. Joseph Engineering College, Mangaluru, with hands-on experience in Python, Object-Oriented Programming, Computer Vision, and self-driven software projects. Growing focus on AI, deep learning, web development, and Data Structures & Algorithms. Seeking opportunities to apply and strengthen technical skills through practical engineering work.

Education

B.E., Computer Science & Engineering St. Joseph Engineering College, Mangaluru	2024 – 2028 (Expected) SGPA: Sem 1 – 7.2 Sem 2 – 8.05
Pre-University (PCMC) Viveka PU College, Kota, Udupi District	80%
Class X (CBSE) GM Vidyaniathan Public School	70%

Technical Skills

- Languages:** Python, JavaScript, HTML, CSS, SQL (basics)
- AI/ML & Computer Vision:** YOLOv8, OpenCV, Deep Learning fundamentals, Generative AI tools
- Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), File Handling, JSON
- Libraries & Tools:** Pandas, Matplotlib, Ultralytics YOLOv8, Git/GitHub, VS Code
- Web Development:** HTML, CSS, JavaScript basics

Projects

Traffic Density Estimation System (Python, OpenCV, YOLOv8, Pandas, Matplotlib)

- Built a real-time computer vision system using YOLOv8 to detect and classify vehicles including cars, buses, trucks, and motorcycles.
- Implemented traffic density classification and prediction with CSV logging and graphical trend visualization.

Library Management System (Python, OOP, JSON)

- Developed a console-based library system using OOP concepts with persistent data storage through JSON file handling.
- Implemented features to add/search books, manage members, and issue/return books.

Personal Portfolio Website (Manus, TypeScript)

- Designed and customized a dark retro-terminal style portfolio showcasing projects, technical skills, certifications, GitHub, LinkedIn, and contact information.
- Built with Manus and customized to create a responsive, personalized developer portfolio.

Certifications

- CS50's Web Programming with Python and JavaScript (CS50W) — HarvardX, edX
- Introduction to Generative AI — Google Cloud Skills Boost
- 2-Day Generative AI Mastermind — Outskill
- AI Tools & Claude Workshop — be10x
- Generative AI Workshop — Neo4j
- 36-Hour Vibeathon — Certificate of Participation, Polaris School of Technology × Replit

Achievements & Activities

- Participated in "PROMPT OPS-2K26" — a prompt engineering competition organized by The AgentBlazer Club & Cipher at SJEC (March 2026).
- Internshala Student Partner — 2026.
- Actively builds and shares self-driven Python, AI, and software projects.

Additional Information

Languages: English, Kannada, Hindi | **LeetCode:** 14+ problems solved
